BUILDING REGULATIONS

6. What proceedings have the Council authorised in respect of an infringement of the Building Regulations?

(1) The present development plan system requires structure plans by the County Council in the non-metropolitan areas, as well as local plans by District Councils. County Councils also deal with minerals and waste plans. In Greater London and the metropolitan areas, Unitary Development Plans are prepared by the relevant London Borough or metropolitan district council.

(2) Local plan includes action area plan.

(3) Any reply will be based on the statutory sewer map provided to the Council by the sewerage undertaker and any other records which the Council may hold.

(4) If the reply is "Not Known", the enquiry should be raised directly with the sewerage undertaker.

(5) The sewerage undertaker is not responsible for the maintenance of private drains or private sewers connecting a property to the public sewer.

(6) An adoption or vesting agreement requires adoption or vesting to take place only when the developer complies with his obligations under that agreement and the enquirer should make separate enquiries as to such compliance and should satisfy himself as to the adequacy of any bond or other financial security for such compliance.

(7) An affirmative answer does not imply that the public highway directly abuts the boundary of the property.

(8) A mini-roundabout is a roundabout having a one-way circulatory carriageway around a flush or slightly raised circular marking less than 4 metres in diameter and with or without flared approaches.

(9) This enquiry refers to the Council's (including where appropriate the County Council's) own proposals but not those of other bodies or companies; the latter are covered by Enquiry 17 in Part II.

(10) For property in Greater London, this includes the London Building Acts.
